EDUCATION

Master of Environmental Data Science, 3.97 GPA (6/26)

Bren School of Environmental Science & Management – University of California, Santa Barbara (UCSB)

Highlighted Coursework: Geospatial Analysis and Remote Sensing, Modeling Environmental Systems, Machine Learning in Environmental Science, Data Visualization and Communication

Leadership: Elected as the Graduate Student Association Representative, The Green Initiative Fund

Bachelor of Arts in Environmental Studies, 3.72 GPA (6/20)

Vassar College - Poughkeepsie, New York

Leadership/Involvement: Elected as the Dining Hall Representative and the Committee of College Life Class Representative, competed on the intercollegiate rowing team and participated in the sustainability club

DATA SCIENCE & STATISTICAL ANALYSIS PROJECTS

Analyze Electric Grid Constraints on Equitable Energy Transition – Master's Project (12/25-6/26)

- Analyzed large electric grid data across California and determined electrical hosting capacity at the household level, correlating any inequitable electricity availability with sociodemographic factors

Evaluate How GDP Influences Coastline Protection – Master's Statistics Course Project (12/25)

- Ran a beta regression statistical model to analyze how GDP influences coastline protection by ecosystem
- Analyzed beta regression output into a real-world context, informing what ecosystem types are most and least likely to be protected, and where resources should be utilized to improve conservation

EXPERIENCE

Wildlife Biologist (On-Call) – Chambers Group Inc., Los Angeles, CA (4/24–9/24)

- Wrote daily monitoring reports on nesting birds and wildlife relocation, summarizing construction site compliance with environmental regulations
- Collected and input wildlife data in Field Maps and Survey123, ensuring data quality control and assurance

Community Environmental Conservation Volunteer – Peace Corps, Panama (2/23–2/24)

- Organized environmental events, including reforestation projects, biweekly trash clean-ups, and reuse projects, to promote sustainability values in a 700-person community
- Designed and instituted weekly environmental education plans in collaboration with local teachers at a multi-grade school, incorporating engaging environmental awareness projects

AmeriCorps CivicSpark Fellow – County of Ventura Planning Division, Ventura, CA (9/21-8/22)

- Co-developed and launched the County's inaugural Electronic General Plan as part of the project team
- Researched ongoing brownfield site remediations in the community to verify requirements for contaminant testing and co-presented policy update recommendations to upper management
- Analyzed and drafted a technical report of findings for designating 3 disadvantaged communities within the County pursuant to Senate Bill 1000

ADDITIONAL EXPERIENCE

Native Plant Nursery Technician – Arroyo Seco Foundation, Pasadena, CA (7/22-1/23)

Fisheries Research Technician – Sitka Sound Science Center, Juneau, AK (7/21-9/21)

Greenhouse Technician – Vassar College, Poughkeepsie, NY (1/17-5/20)

Plankton Lab Intern – NOAA, Pascagoula, MS (5/18-7/18)

SKILLS

Programming Languages: Python (NumPy, Pandas, Matplotlib, GeoPandas); R; SQL

Tools and Platforms: GitHub; GIS; Affinity; Microsoft Office; Google Suite; Social Media Applications

Languages: Spanish (Native)
